3. Introduction

A portfolio is a collection of academic work come in many forms such as file and document. But nowadays in technology world, portfolio come in easy accessible such as website and webpage that use html, css and javascript language.

In my portfolio, there are 5 pages in it such as personal profile, photo gallery, subject taken, matric card and contact me. In personal profile pages, there are a lot of informations about me such as name, contact, email, skills, educations, language, strength, work experience, my practical video and achievements.

In photo gallery pages, there are a lot of media things. First there are a collections of picture, a song that mp3 format. The song title "Only Human by Jonas Brother" can be played while we take a look at for the website. And for the image, we can click it and it will be large by using JavaScript code so we can see it more clearly.

In subject taken page, there are two tables in it. For the first table is for all subject taken in this semester 4. For the second table, there is timetable for this semester.

For the matric card page, there is my matric card that I design alone by using html and css and use a few image png format for the pattern. When we move the cursor to the matric card it will enlarge by using hover in css.

Lastly, for the feedback page, there is my social media anchors such like Instagram, Facebook and Whatsapp. If user click it will bring user to the website. Next, there is feedback form below it that user to leave the feedback to be fill in the form.
